

MOHAMMAD HASNAIN AFZAL

WEB DEVELOPER

scheme 33 gulzar-e-hijri, Karachi, Pakistan, Pakistan | hasnain.afzal.7867@gmail.com | 03335077065

PROFILE

I'm Mohammad Hasnain Afzal, a Web Developer with 1 year of experience, skilled in HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, Laravel, and MySQL. I specialize in building clean, responsive, and user-friendly websites with backend development and API integration. With hands-on experience at Seller Growth Valley, I focus on improving user experience, optimizing website performance, and delivering reliable, high-quality web solutions. I'm committed to learning new technologies and continuously improving my development skills.

WORK EXPERIENCE

Web Developer, Seller Growth Valley

Jan 2023 - Jul 2024

In the role of Web Developer at Seller Growth Valley, the focus was on developing and optimizing web applications to enhance user experience and engagement. The responsibility involved collaborating with cross-functional teams to ensure seamless integration of new features and maintaining high standards of code quality. This position required a keen eye for detail and the ability to adapt quickly to new technologies and methodologies.

Modern Development Practices

Self-Initiated

- Implemented modern frontend development practices, including debugging, performance optimization, and version control with GitHub.
- Ensured consistent UI/UX across major browsers (Chrome, Firefox, Edge, Safari) by resolving compatibility issues and applying best practices..

Frontend Developer - Practice Projects

Self-Initiated

- Built Amazon Clone and Hostinger Clone using HTML, CSS, and JavaScript, showcasing responsive design, interactive UI features, and pixel-perfect layouts.
- Developed multiple small-scale frontend practice projects, focusing on animations, form validations, API integration, and component-based reusable UI elements.

Full Stack Development - Practice Projects

Self-Initiated

- Built a Gym Website & Management System using HTML, CSS, JavaScript, Tailwind CSS, PHP, Laravel, and MySQL, featuring member registration, membership management, attendance tracking, and admin dashboard functionalities
- Developed backend functionalities including authentication, CRUD operations, database management, form handling, and responsive dashboard interfaces while ensuring efficient data handling and smooth user experience.

EDUCATION

Diploma in Software Engineering

2024- Ongoing

APTECH COMPUTER EDUCATION

- Learning advanced concepts of software development, database management, and programming logic
- Actively developing real-world web projects using HTML, CSS, JavaScript, and modern frameworks.
